

SanCeram Solid Surface Wash Trough - T1

Description

SanCeram sloping thermoformed solid surface wash trough with tap deck for use with deck mounted taps. Thermoformed wash troughs are made from a single piece of solid surface, thermoformed into a seamless, curved shape – reducing the hard edges and joints that can trap dirt making them more hygienic and maintenance easy.

Features

- Strong and robust material with high resistance to cleaning products and chemicals
- Non-porous & waterproof material
- Repairable, self coloured throughout
- Colour matched adhesive gives a seamless joint
- Hygienic and smooth surface meeting NSF51 standards
- Fire resistant - UK BS476 Class 0
- Single left handed waste outlet point
- Wall mounted install
- Available in 4 standard sizes
- Provided undrilled for flexibility onsite as standard
- Tap holes drilled at 600mm centres available on request
